Ponds, Streams & Waterfalls

We touched on all aspects of watery work in 2022, in total :

- We built **10** brand new ponds
- Created **9** brand new waterfalls
- Brought over **20** existing ponds back to life
- We maintained **80+** water features

& Wildflowers Too!

We also laid 3 new wildflower gardens, one being a huge **150m²** meadow. The bees will love it!

Waterfall Reconstruction & Development - Nov 2022

Wildflower Border Installation - May 2022

Eco Pond & Waterfall Installation - Oct 2022

On A Personal Note...

As a lot of you may already know, we got wed in June. It was a wonderful day celebrating with family and friends. We'd like to thank our customers for their patience during a busy period of our lives at the busiest period of our season!

Community Projects

In 2022 we arranged for donated materials from our generous suppliers for two fantastic projects.

In May we completely reconstructed a worn out old primary school pond, allowing the outdoor education coordinator to get the kids face to face with wildlife. In November we created a brand new wildlife pond at a local care home and dementia unit.

School Pond Project

We are developing a *Primary School Pond Project* and are looking for new or old pond opportunities. Please get in touch if you have any suggestions!

Froglife

We are once again corporate sponsors, aiding the charity's mission to educate & restore pond habitats.

NGS Donation

For another year, 50% of the turnover from our open garden stalls was donated to the NGS.

£106.00

2023. A Bright Season Ahead!

We're looking forward to another season working with great customers and and greater ponds.

A few ways we're helping look after you this season:

We've invested in a new smaller van to bring fuel usage down, allowing us to freeze our maintenance costs for 2023.

10% off pond & bog planting for all regular maintenance customers

10% off wildflower installations for all regular maintenance customers

15% off all products at our partner business:

[The Conscious Collective](#)

We're also introducing a top up service for all treatments & fish food, helping to reduce costs and more importantly excess packaging waste.

£50 BONUS!*

for any recommendation resulting in a new client's construction project or maintenance schedule

**redeemable on WildWater services*

Complete Pond Renovation - Feb 2022

Still Pond Reconstruction
- April 2022

Eco Pond & Waterfall
Installation - April 2022

Still Pond Installation
- Feb 2022

To Our Maintenance Customers:

This season we will be altering our approach to your booking schedule for the year ahead, improving our efficiency during the height of the season.

We are still organising this, but the following system can be expected:

- Spring Starter services will be booked for March, bookings issued in Feb
- Bookings for all regular services from May through to November will also be released in full in March, with all dates and times being issued then
- Close Down services will be booked for December, bookings issued in Nov

Could you please notify us of any holiday dates as soon as possible.

We look forward to seeing you in 2023!

Harry, Sophie & Jack
Team WildWater
